

**FRISCH PLASTICS CORP.**

**Animals & Insects  
Supplement**

**2008**

# Product Information

1

This catalog presents our Animals and Insects line of embellishments, and supplements any existing Frisch catalogs that you may already have. All of our products are available all year round in order to support our customers' varying lead times.

## Size

All of the items in this catalog are presented in their actual sizes. This eliminates guess work and estimation, and should allow for easy identification of how the piece can fit into your design.

## Colors

All of the products in this catalog are available in any color. If required, exact color matches to a sample you supply can be provided. In addition to standard colors, we can produce the following 'special effects':

- ◆ **Translucent/transparent** - this creates the look of colored glass or a clear lens
- ◆ **Pearlized** - this coloring has a pearl-like luster throughout the item
- ◆ **Faux metallic** - this has a metallic sheen. Note that this is not a vacuum plated finish
- ◆ **Day-glo/fluorescent** - this yields a glowing effect when struck by light
- ◆ **Glow-in-the-dark** - items will glow in the dark after being exposed to light
- ◆ **Dull finish** - the part has a matte finish
- ◆ **Shiny finish** - the part has a glossy finish
- ◆ **Variegated/flecks** - the material has flecks of different color in it
- ◆ **Photo sensitive** - this material changes color when exposed to varying light intensities
- ◆ **Heat sensitive** - this material changes color when exposed to heat (i.e., a mood ring)

Examples of a variety of colors are provided throughout the catalog, in which we've included popular colors for items, as well as samples of the various effects.

## Finishes

Additional finishes can be provided by our finishing processes. We can add the following finishes if desired:

- ◆ **Painted** - this provides additional detail to items by highlighting specific areas.
- ◆ **Vacuum plated** - this provides a metallic finish to plastic. This is customarily done in a chrome or gold finish, but other colors are available.
- ◆ **Hot stamped** - this process stamps a foil on the item, highlighting the raised surfaces of it. The foil can have a metallic or nonmetallic appearance.

Samples of the various finishes are shown throughout the catalog.

# 2 Product Information

## Ordering

We currently accept orders via:

- ◆ **Email** - simply send your orders to [orders@frischplastics.com](mailto:orders@frischplastics.com)
- ◆ **Fax** - send purchase orders to (914) 674-9238
- ◆ **Mail** - send purchase orders to 81 Windsor Dr., Pine Brook, NJ 07058
- ◆ **Telephone** - we are happy to assist you at (914) 693-4979

## Backing

Unless otherwise requested, all of our items are provided with flat, clean backing, suitable for the application of glue or some other material. If desired, we can apply the backing material. Typical backing options include:

- ◆ **Tape** - a double-sided tape is applied to the item, so that it can easily be attached
- ◆ **Magnet** - a magnet is adhered to the back of the item
- ◆ **Pin** - the item is fitted with a pin so that it can be worn

## Materials

Our standard base material is a rigid plastic, polystyrene. For flexible items, we use polypropylene. Other materials are available on request.

## Pricing

Pricing for all of our items varies due to the quantities being requested. Please contact us for price quotes. Our minimum order is 10,000 pieces per item. Smaller quantities are subject to additional fees.

## Buyer Assistance Program

Take advantage of over 75 years of experience in the embellishment industry. Our staff can provide assistance with selection of items, colors, finishes, etc. It is our pleasure to help you.

## Custom Molds

Our designers are available to work with clients to help design new and custom molds. We can work with your drafts of items, samples, or CAD files.
